EDUCATION

**Bachelor of science in
Information Technology**
Sarvajani University
2024-2027

SKILL

- Node js

Framework

- React Native
- Express js

Tools

- VS code
- Figma

LANGUAGE

- Gujarati
- Marathi
- Hindi

PROFILE

I am a Fullstack developer(React native,Node js) focused on building Android apps and currently learning iOS development. I use node js for login, database, and real-time features, and Figma to design simple and user-friendly app interfaces. I enjoy creating modern mobile apps and improving my skills step by step.

CURRENT EXPERIENCE

Bachelor of science in Information Technology 2024-2027
Sarvajani University

- I am currently pursuing my B.Sc. in Information Technology and gaining hands-on experience in core subjects such as Database Management System (DBMS), Java, HTML, and CSS. Along with my studies, I focus on strengthening my practical knowledge in programming, database handling, and web designing, which helps me build a strong foundation for my career in IT.

Self Study

- I have strong skills in React Native, Node js,Express js and Figma, which help me in developing cross-platform mobile applications, integrating backend services, and designing modern, user-friendly interfaces with a focus on UI/UX.
- I am work on backend use of node.js.I study on you tube on self study.For more improve in backend services.

Project

TO-DO APP

- I build a this a for basic practical knowledge of react native and firebase. I was build app for improve a self confidence on react-native.

BANK MANEGMENT APP

- I build a this a for basic practical knowledge of react native and Nodejs. I was build app for improve a self confidence on node js and express js fremwork.
